

Hotel Concordia, Lund, Sweden

Hotel Concordia is a personal, modern and family owned hotel. The hotel was established in 1982 and several major renovations have been done since then. The latest major renovation was done in 2007 & 2017. The Hotel Concordia is an independent, no hotel chain. The hotel is located **in the absolute centre** of the cultural and university city of Lund, south of Sweden. We are proud of the fact that in April 2005, Hotel Concordia was eco-labelled with the prestigious Nordic eco-label: "The Nordic Swan". Every year we improve and renovate different parts of the hotel.

The following are included in the room rate: VAT, diversified breakfast buffet with many ecological products, free access to our wireless Internet system *Concordia Wireless*, newspapers to read while having breakfast. In the private business centre the guests are able to use the Internet for free and given the opportunity to work with various programs such as Word, Excel, etc. There is also a printer in the business centre. In the lobby area we provide guest computer connected to the Internet, with free access 24 h for our guests. In the lobby area you can lend Concordia-bicycles, games, books, newspapers, etc.

For a small fee our guests have access to Hotel Concordia's **exclusive private relax area**, which includes a sauna with a spectacular view over the rooftops down to the park. After enjoying the sauna our guests can borrow the high quality bathrobes and relax in the comfortable chairs. Feel free to watch some TV (32" LED-TV) or listen to some music, using the Bang & Olufsen cd/radio player.

Our popular roof terrace "Tycho Brahe", named after the famous astronomer and whose mother Beata Bille owned this area around the hotel during the 1500's. From up here you have a spectacular view over the roof tops, down towards the park, "Lunds Stadspark". Just relax in the lounge furnitures while enjoying your breakfast, a glass of wine, a cup of coffee, etc. Free access for our guests. Welcome up and don't forget your sunshades!

We train our staff regularly concerning the fire protection and general safety issues at the hotel. Our fire-protection system is top modern and contains a sprinkler system in 15 of our guest rooms and in the lobby area, smoke detectors in all 60 guest rooms and in all public areas at the hotel.

Safety for our guests and staff is the most important thing for us. This is why we have an agreement with a security company and we also have a modern surveillance CC-TV with recording functions installed in the public areas throughout the hotel building. In the guest room doors there are so called security "door viewers" installed. Also, to improve the security for our guests even more, we have a secure passage system. When the hotel is unmanned between 23 pm – 05 am our security company performs control throughout the whole hotel building. You can always contact the security company by using the contact information at the Front Desk.
